# TaxLog book *(Shared Cars)*

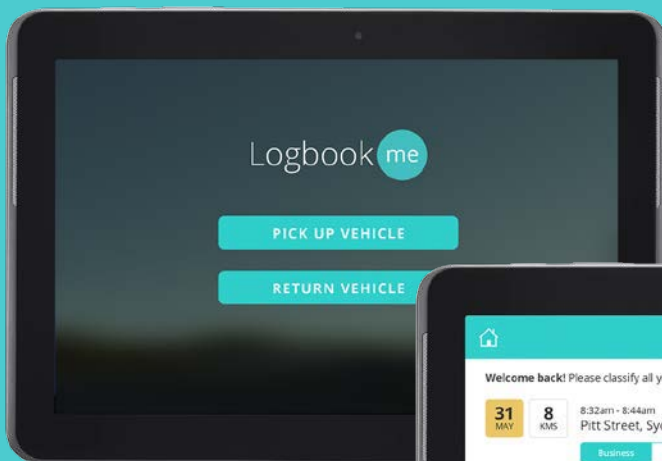

## A Tax Logbook That Works For You

Shared cars are often difficult to manage with multiple drivers and no accountability. LogbookMe automatically records the driver at vehicle check out and all trips taken in the vehicle. The driver then simply classifies the trips when returning the keys. Live, auditable and comprehensive reporting stored safely in the cloud.

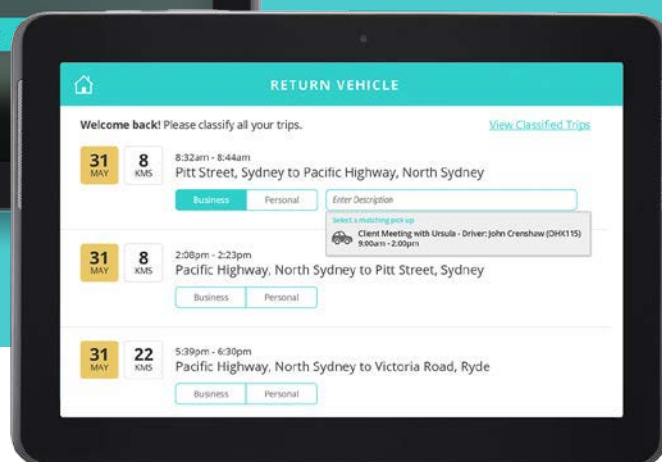

Designed for Pooled Cars, Tool of Trade, 1 Tonne & Operating Leases.

## The Facts

- Minimal effort for the driver
- All trips logged automatically everytime vehicle is driven
- No missing trips or missing logbooks
- Driver identification recorded for each trip
- Simple to use, 2-step trip classification
- ATO approved (CR 2014/27)
- Maximise tax savings
- Affordable solution
- Comprehensive automated reporting
- Eliminates admin and paper work

LogbookMe tax logbook takes the hassle out of managing logbooks for shared cars. All recording of trips is automated and the driver simply classifies trips on the LogbookMe tablet when returning the keys.

# 12 Week Parking Register

## Reduce the FBT cost of Employee Parking

Most employers assume employees use car parking each day when calculating fringe benefits tax, this results in overpayment of tax. LogbookMe automatically tracks and monitors employee car park usage, reporting on whether a fringe benefits tax liability exists. Option for 12 week register or ongoing. Designed for employer provided parking and salary sacrifice.

## The Facts

- Automated car park usage reporting
- FBT on a day doesn't apply if:
  - Parked less than 4 hours between 7am & 7pm
  - Parked for 24 hours
- ATO approved (CR 2015/2)
- Register valid for 5 FBT years
- FBT liability parameters applied to trips in register to determine FBT exempt days
- No employee action required
- Significant tax savings opportunity
- Comprehensive automated reporting
- Eliminates admin and paper work

LogbookMe car parking register automatically applies all the necessary tax legislative parameters to classify days as taxable or non-taxable to produce tax compliant reports for calculating fringe benefits tax on car parking.

The LogbookMe car parking report allows employers to identify and exclude days that car parking is not subject to FBT. Employees simply use the car park as normal and LogbookMe automatically records usage and produces an ATO compliant 12 week register parking report.

### Great for:

- Sales teams who are on the road,
- Technicians who are out in the field,
- Shift workers,
- Employees who travel frequently,
- Employees with multiple work locations,
- Part-timers/employees with flexible working arrangements
